ELITE GLASS SOLUTIONS

# ADJUSTABLE SPIGOTS

## ENGINEERING DRAWING

## ADJUSTMENT INSTRUCTION

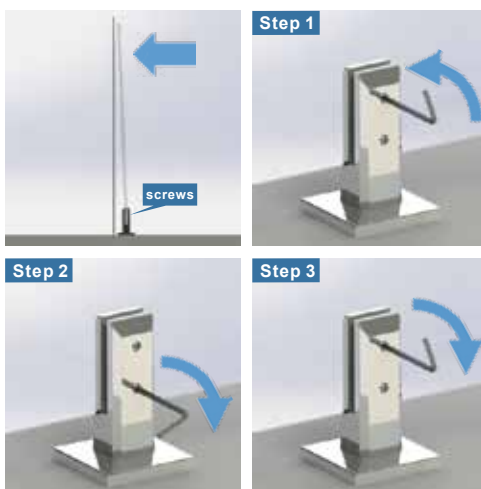

**A. If the glass panel is leaning towards the side of the spigot with the screw holes.**

Step 1. Loosen the bottom screw slightly to allow the glass to move.

Step 2. Tighten the top screw until the glass is level.

Step 3. Tighten the bottom screw till tight.

Repeat above if needed.

**B. If the glass panel is leaning away from the side of the spigot with the screw holes.**

Step 1. Loosen the top screw slightly to allow the glass to move

Step 2. Tighten the bottom screw until the glass is level.

Step 3. Tighten the top screw till tight.

Repeat above if needed
