

LEVELING STAND

- Designed to Make It Easier to Install Spigots in Place.
- Easier to Ensure Top of Glass is Aligned by Simply Adjusting the Standing Legs(Bolts)

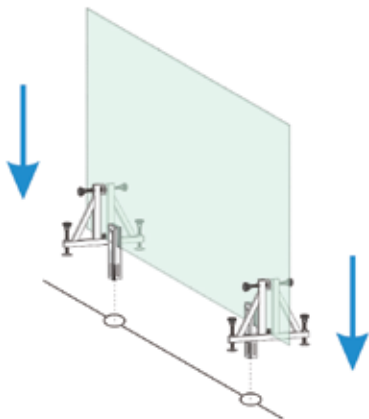

SQR4829

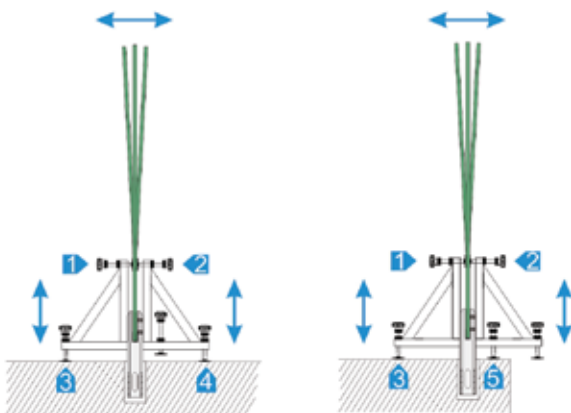

USE GUIDE

Step 1 Lay glass on a table with something soft under it. Clamp the spigots and leveling stands to the glass panels.

Step 2 Stand the glass up and evenly lower the spigots into the core holes until the leveling stand sits on the ground.

Step 3 Screwing No. 1 and No. 2 bolts to make glass plumb.

Screwing No. 3 and No. 4 standing legs to adjust the gap from fixing surface to the bottom of the glass.

Use No.5 standing leg if the location of spigots is close to the edge.
