# Technology

PICO is a further evolution in the glass sliding system product range.  
The upper track of PICO is available in two different versions  
with and without side fixed panel.  
The set of clamps and stoppers are very small  
and totally hidden in the upper track.  
Pico is an ideal solution for false ceiling installation.  
In fact the glass panel can be easily hung and adjusted  
from below the false ceiling level.  
Glass panel weight should not exceed 150Kg and 12mm thickness.  
Glass cut outs are required to assure maximum security.

# components

## Art. No. 4-501

Set for sliding panel max. 150 kg (for 8-10-12 mm glass thicknesses) composed by:

- 2 clamps 160 mm/each
- 2 stoppers (art. no. 4-519)
- 1 floor guiding patch (art. no. 4-009).

## Art. No. 4-511

Set for sliding panel max. 75 kg (for 8-10 mm glass thicknesses) composed by:

- 2 clamps 115 mm/each
- 2 stoppers (art. no. 4-519)
- 1 floor guiding patch (art. no. 4-009).

## Art. No. 4-521 (solo con – only with 4-502 / 4-503)

Set for sliding panel max. 50 kg (for 8-10 mm glass thicknesses) composed by:

- 2 clamps 60 mm/each
- 2 stoppers (art. no. 4-519)
- 1 floor guiding patch (art. no. 4-009).

## Art. No. 4-502 / 4-503

Runner rail prepared for ceiling (4-502) or wall (4-503) fastening - lengths:

Available aluminium finishes

- 610 Not anodized
- 611 Silver anodized
- 680 Similar to stainless steel
- 615 Dark bronze anodized
- RAL9016 White powder coated
